Art Unit: 1614

Claims 108, 109 and 112-132 are presented for examination.

The amendments and remarks filed on have been received and entered.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 14 is indefinite as to the expression "wherein said agent includes albumin", which fails to clarify the intended meaning. It is not clear if applicant intended to indicate the method of claim 108, further comprising an addition of albumin or albumin is included in lipoprotein.

Claim 131 contains the trademark/trade name LIPOFUNDIN. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe an agent used for the treatment of diseases of anterior segment of the eye and, accordingly, the identification/description is indefinite. Claim 132 also uses the

trademark name, INTRALIPID, but such term has been described in example one page 11 of the specification and the meaning and identity of such term is clear.

Claims 108, 109, 112, 113, 115-130 and 132 at present time are considered to be allowable.
